Objectives

To pursue a challenging and rewarding Full Stack Developer position where I can utilize my 3+ years of professional experience in designing, developing, and deploying scalable web applications. Proficient in **Laravel (PHP), React.js, MySQL, and Tailwind CSS,** with hands-on experience in building custom CMS solutions, responsive user interfaces, and database-driven applications. **Additionally, trained in MERN Stack Development (3 months) and Python with Data Science (60 hours),** with knowledge of modern web technologies and data analysis fundamentals. Successfully contributed to multiple live projects, transforming business requirements into efficient and user-friendly digital solutions. Eager to apply my technical knowledge, problem-solving abilities, and collaborative skills to develop innovative applications, improve system performance, and contribute to organizational growth while continuously expanding my professional expertise.
